## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David Jakopin on August 9, 2006.

The application has been amended as follows:

#### **IN THE CLAIMS:**

1. (Canceled)
2. (Canceled)

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The present invention is directed to a method for securely controlling applications on an integrated circuit card. Independent claim 3 identifies the uniquely distinct feature of "determining, based at least upon an encrypted personalization data block, whether the at least one IC card is part of a qualified set of IC cards to accept loading of said application." Independent claim 4 identifies the uniquely distinct feature of "determining, based at least upon an encrypted personalization data block, whether the at least one IC card is

part of a qualified set of IC cards to accept deleting of said application." The closest prior art, Peyret (US 5,923,884), discloses a conventional system for loading/deleting applications on an integrated circuit card, but fails to anticipate or render the above underlined limitations obvious. Peyret does not determine a qualified set of cards eligible for loading/deleting of applications.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
